Advanced Scheduling

Less Time Spent Scheduling
Easily create repeatable and compliant schedules that match job requirements, employee availability and eligibility. Templates and rules make routine scheduling simple and swift

Labor Law Compliance
Scheduling rules ensure required skills or maximum hours constraints are met

Less Unplanned Overtime
Eliminate unplanned overtime and compare budgeted hours to actual worked time

Better Schedule Adherence
Employees can trade shifts rather than no show. Flexible scheduling leads to happier employees and more reliable shift coverage
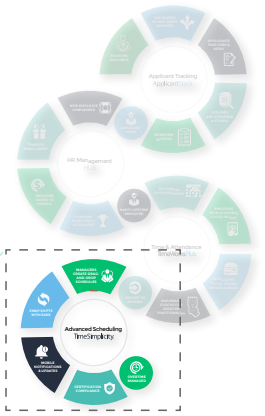

TimeSimplicity®

TimeSimplicity delivers dynamic, multishift, requirements-based, advanced scheduling. Simplify creation and management of complex schedules while accommodating employee preferences, required skills, labor law constraints and much more.

TimeSimplicity Features

- ☑ **Schedule Planning -** Create custom individual or group schedules for date, time or location. Repeat or customize for future schedules with draft planning versions

- ☑ **Schedule Changes -** Display open shifts and available employees with best-fit criteria

- ☑ **Schedule Enforcement -** Lock-out based on custom thresholds and messages for early punching

- ☑ **Schedule Access -** Employee access to self-service portal for schedules, reminders, shift trade boards, time cards, time-off requests and PTO balances

Employee Scheduling & Shift Management

1 Schedule Workers
Create dynamic, multi-shift, multi-location schedules that support employee preferences, skills, and availability, plus allow shift trading and self-service.
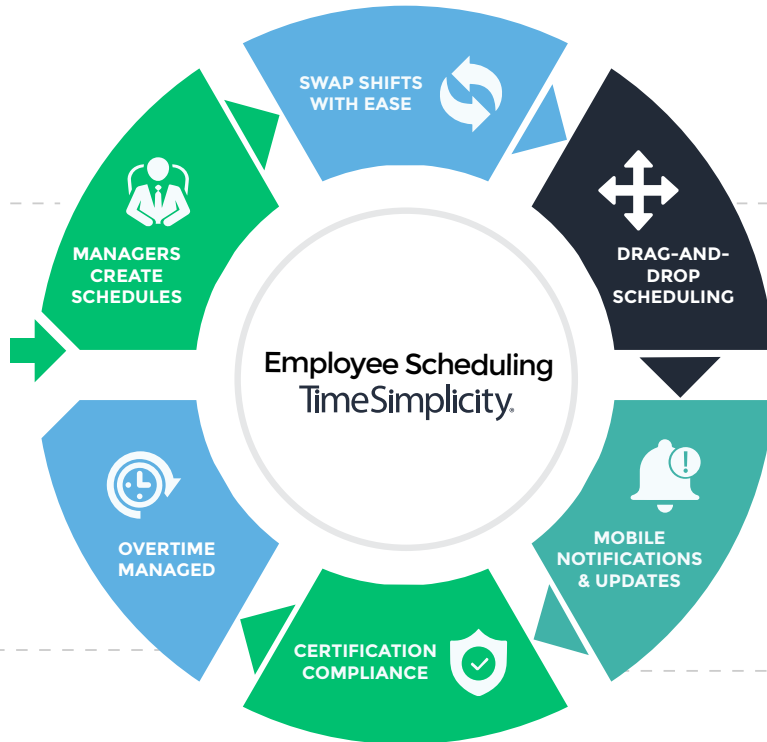

2 Shift Trading
Give employees the ability to initiate shift trades with manager approval, eligibility and drop rules, notify all parties, improve schedule adherence and efficiency.

3 Visual Scheduler
Create and reuse schedule templates for date, time, location applied to multiple people, drag and drop people to time slots and make adjustments.

4 Easy Messaging
Automatically send email or text notifications and reminders to managers and employees when schedules change, shifts trade.

5 Schedule Rules
Check compliance with certification rules, associate certification expiration date with holder to ensure employees match role requirements.

6 Overtime Control
Set max hours per period, block or warn if exceeded during scheduling process, notify employee and manager if overtime approaches.
